

PRODUCT FEATURES

VENTILATION

VENTILATION

CFM REDUCTION SYSTEM

CFM Reduction system (CRS), is an exclusive feature to Elica hoods, which enables the user directly in the glass touch control the maximum blower CFM, to meet local code requirements.

PERIMETER ASPIRATION

This technology draws air through a narrowed channel around a face plate, which increases suction, without increasing blower speed or energy consumption.

TUNE - WHITE

Makes possible to choose the preferred shade of white to match with the lighting in the kitchen, by adjusting the temperature of the LEDs, from a range that goes from yellow light (2700 K) to white light (6000 K).

LED LIGHT

LED lighting is undoubtedly the smartest solution in terms of energy saving. Expected life time of over 20.000 hours, represents the most remarkable advantage of LED light bulbs.

REMOTE CONTROL

Elica's ADA compliant Remote Control, provides added convenience to the typical user, as well as, full function access for those with limited mobility.

TOP PERFORMANCE

Excellent performance for models equipped with this plus. High fume capturing capacity with an average aspiration range of 600 CFM's. with low noise levels, 1.2 - 1.7 sones, at working speed.

TOUCH CONTROLS

Enjoy effortless cooking, and fully control the hood with the tip of a single finger.

HUSH SYSTEM

An exclusive sound deadening technology that effectively reduces sound levels up to 35%, compared to typical range hoods.

LONG LIFE FILTER

One of a kind odour filter, capable of regenerating itself and of lasting up to 3 years. To maintain these characteristics, the filter only requires simple maintenance: wash every 2 or 3 months with hot water and mild soap (also in dishwasher at 65 degrees) and dry in the oven for ten minutes at 100 degrees.

STAINLESS STEEL BAFFLE SLOT

A baffle shaped stainless steel filter with mesh backing allows air to pass but blocks grease, which drops into the high capacity baffle cavities. The design delivers large volume capacity, excellent capture efficiency at all blower speeds, silent operation, plus, durability that will last the life of the hood.

BLOWER KIT

Elica Blower KITS offers installation flexibility that will accommodate most construction requirements, plus provides options related to ventilation power and sound generation.

3X LAYER GREASE FILTER

Elica aluminum mesh filters are a step above competition, featuring triple layered, anodized aluminum that is woven into a highly dense mesh. The thick mesh captures more grease, anodization helps resist staining and provides durability to repeated cleanings in the dishwasher.

PROFESSIONAL PERFORMANCE

Special features and high performances for models with high aspiration capacity.

GREASE COLLECTORS

Enjoy effortless cooking, and fully control the hood with the tip of a single finger.

VENTILATION

TOTAL INTEGRATION

These products have been designed to be seamlessly integrated into the kitchen cabinetry whilst maintaining harmony with the surroundings.

UNIQUE MATERIALS

Products designed with unique materials and finishes with great aesthetic impact but also with practical and durable characteristics suitable for kitchen use.

DEEP SILENCE

A noise abatement system that allows you to achieve high silence at all speeds thanks to the elimination of vortices and noise peaks.

HEAT GUARD

Senses extreme temperatures (>158 degrees) and automatically adjusts the blower speed to HIGH

SEAMLESS LOOK

Heavy gauge stainless steel “Seamless” construction that delivers refined elegance.

LED CONSUMER REPLACEABLE BULB

High quality LED lighting usually requires a skilled technician to replace lamps. Avoid this expense with Elica’s new LED lamps that enable homeowners to replace in seconds

SUPER EASY INSTALLATION

With the exclusive Elica system, installation can be done in total safety in just a few steps, safeguarding the look of the product and the space in which it is positioned.

REPLACE FILTER ALARM

When activated, your hood will emit a “beep” signal to let you know when is time to replace the carbon filters. See manual to activate feature.

CLEAN FILTER ALARM

When activated, your hood will emit a “beep” signal to let you know it is time to clean your filters. For some models, an intermittent light will remain active until cleaning filter action is completed. See manual to activate feature.

COOKING

PRODUCT FEATURES

COOKING

POT DETECTOR

Automatically detects a pot on a cooking zones and sends a signal to the hood. Elica hoods with STREAM technology will turn on automatically.

TEMPERATURE MANAGER

For speed and convenience, pre-set cooking zones to automatically turn on to a desired temperature.

TOUCH CONTROL

Enjoy effortless cooking, and fully control each cooking zone with the tip of a single finger.

AIRMATIC

The auto aspiration adjusts automatically to the number and power of the used cooking zones.

BRIDGE ZONES

The special Bridge Zones can work both individually or combined for a more homogeneous cooking using both baking pans and large pots. Thanks to this technology it is the cooktop's surface that adapts itself to the type of pots being used.

STOP & GO

If you are interrupted while cooking, or you have to go into another room, or you just want a break, with just a single movement, pressing the Stop&Go button, you can switch off all the cooking zones and walk away with complete confidence and safety.

CERAMIC FILTERS

This recirculating filter is suitable for the most challenging cooking environment, given its superior ability to filter and purify the air. The new Elica Technology is able to achieve

filtering threshold of 82% against the market average of 60% it can be regenerated up to 5 years if placed in oven at 390° F for 45 minutes every 2/3 months.

UNDERCABINET REFRIGERATION

UNDERCABINET REFRIGERATION

EPC
TECHNOLOGY

EPC TECHNOLOGY

Elica Perfect Climate with double air duct cooling system. Meet Elica's Intelligent System with sensors that deliver precise and consistent temperature & humidity evenly throughout the entire compartment, so that all stored bottles are preserved under the same conditions.

ECO-MODE

ECO MODE

Sustainable and environmentally friendly: Eco-Mode will maintain optimum interior temperature, while saving energy consumption turning the lights OFF.

CONCEALED
HINGE

CONCEALED HINGE

Door hinges are hidden within the door and do not extend above the top of the door, allowing for a cleaner, more refined appearance, plus enabling the refrigerator to fit tighter within cabinetry.

QUIET
OPERATION

QUIET OPERATION

Elica offers a Speed-controlled motor, reducing exterior sound levels, while offering high ventilation performance to keep constant interior temperature and dampening any possible vibration that could disturb the preservation of wine or beverages.

DOOR OPEN
ALARM

DOOR OPEN ALARM

To save energy and ensure proper preservation of your beverages, all Elica Undercabinet Refrigeration products come with a Door-Open Alarm, that will repeatedly beep when the door has been left ajar for longer than 5 minutes.

HIGH EFFICIENCY
CARBON FILTERS

HIGH EFFICIENCY CARBON FILTERS

Elica's advanced Carbon Filters remove odors and other gaseous pollutants from the air, ensuring fresh and pure environment.
